Roberto:

Thank you very much for your response on the Kinder Morgan expedited loading rack pump project. I appreciate you carving out some time on such short notice to take a look at this permit revision.

On a second note, when we were on a conference call with you last Tuesday, Mohsen asked you (or maybe Lisa) to contact his secretary, Ann Millican, to set up a follow-up call tomorrow so we can further discuss the type of revision the Rule 1420.1 Compliance Plan will be (Minor or Significant). As far as I know, Ann has not been contacted by you as yet. Ann can be reached at Mohsen's number (909-396-2662) or her personal line at 909-396-2435. Thanks in advance for following up on this, or, if you already have, thanks also.

Best regards,

Thomas Liebel
